### **L&T Technology Services Collaborating with Wind River for Intelligent Systems**

**Bangalore and Detroit, September 21, 2017:** L&T Technology Services (NSE: LTTS), a leading global pure-play engineering services company, announced its collaboration with Wind River, an Intel company and world leader in delivering software for the Internet of Things (IoT).

The two companies will work together to investigate, validate and optimize LTTS technologies with Wind River software platforms to discover compelling joint value propositions for shared customers in areas such as IoT, cloud computing, and network functions virtualization (NFV) in markets ranging from aerospace and defense and automotive to industrial, medical, and networking.

“With Wind River’s flexible, extensible, and pre-integrated software platforms, and LTTS’ rich technology expertise in Transportation, Industrial, Medical and Telecom and other hi-tech areas, our customers will be able to begin their IoT transformation and realize their vision for new market opportunities,” said Mr Amit Chadha, President, Sales & Business Development and Member of the Board, L&T Technology Services Limited.

“We are excited to be a member of the Wind River partner program and look forward to our collaboration,” Mr Chadha said.

“LTTS’ expertise spans across a wide range of industries including those with mission critical applications such as Transportation, Aerospace and Defense. By working together with leaders such as LTTS, Wind River can help deliver powerful solutions to meet the diverse needs of our shared customers,” said Mr Brandy Goolsby, Senior Business Development Manager, Wind River.

#### **About L&T Technology Services Limited:**

L&T Technology Services Limited is a publicly listed subsidiary of Larsen & Toubro Limited focused on Engineering and R&D Services (ER&D) addressing global customers including 52 Fortune 500 companies and 48 of the world’s top ER&D spenders.
