

Containerization Solution for Optimization

Scope

- Design of Agriculture Equipment rack for containerization with reduced cost
- Optimization of existing containers racks

Deliverables

- Concept, 3D design and manufacturing drawing for new container racks.
- **Target Cost: USD 200 | Achieved : USD 180**
- 6 Baler Unit in standard 40 Feet Container

Benefits

- Modular design concept helps in reducing cost up to 25%
- Concurrent design of container racks to reduce overall logistics time by 20%
- Maximizing transport efficiency and line delivery
