Subject: Press Release

Dear Sir/Madam,

Pursuant to Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, we are sending herewith a copy of the Press Release titled “**L&T Technology Services, BITS Pilani and CRENS join forces to drive R&D and innovation in National Security Research**” which is self-explanatory.

This is for your information and records.

Thanking You,

Yours sincerely,

For L&T Technology Services Limited

Prasad Shanbhag
Company Secretary & Compliance Officer
(M. No. A 30254)

Press Release

L&T Technology Services, BITS Pilani and CRENS join forces to drive R&D and innovation in National Security Research

Partnership to unite the expertise of technologists and professionals from defence, law enforcement, and cybersecurity domains

Hyderabad, May 21, 2025: L&T Technology Services Limited (BSE: 540115, NSE: LTTS), a global leader in engineering and technology services, today announced that it has signed a Memorandum of Understanding (MoU) with the Birla Institute of Technology and Science (BITS) Pilani and the Center for Research and Excellence in National Security (CRENS). This landmark collaboration aims to drive research & development (R&D), innovation, and skill development in areas critical to national security, including cybersecurity, perimeter security, digital forensics, and emerging technologies.

The partnership was officially signed at BITS Pilani, Hyderabad campus by Mr. Ramakrishna JVS, Global Head at LTTS, and Prof. Soumyo Mukherji, Director of BITS Pilani Hyderabad, in the presence of Mr. M Rama Manohara Babu, Head, CRENS and Prof. Sanket Goel, Dean (Research & Innovation), BITS Pilani.

Mr. Ramakrishna JVS, Global Head at LTTS, and Prof. Soumyo Mukherji, Director of BITS Pilani Hyderabad, signed the MoU in the presence of Mr. M Rama Manohara Babu, Head of CRENS, and Prof. Sanket Goel, Dean (Research & Innovation), BITS Pilani.

CRENS, hosted at the BITS Pilani Hyderabad campus, will serve as the central hub for this collaboration to interface with law enforcement, industry experts, and academic researchers, fostering technological advancements and robust skill-building initiatives. With active involvement from defense experts, including former leaders from the armed forces and Defence Research and Development Organisation (DRDO), CRENS ensures a real-world influence on the partnership's projects.

LTTS has vast experience of setting up over 25 smart & safe city command centers, 100+ engineering labs, Cyber Threat Analytics Center & SOCs, powered by advanced AI solutions and LTTS Fusion™, an Integrated Operations Center Platform in realms of public safety & cyber security and border & critical infra perimeter security.

This partnership is positioned to strengthen India's security infrastructure through multiple streams of collaboration, including:

1. **Research and Development:** Joint projects in public safety, perimeter security, cybersecurity, and digital forensics, leveraging AI, quantum, and communication technologies to address key challenges in the national security domain.
2. **Skill Development Programs:** Creation of thematic, short-term training and certification programs tailored for professionals in industries related to cybersecurity and other emerging technologies.
3. **Innovation Ecosystems:** Mentorship and incubation support for startups, accelerating innovation in crucial security technologies while assisting young entrepreneurs from ideation to market-readiness.
4. **Policy Advisory and Capacity Building:** Providing expert advisory to national security agencies and assisting in the design of effective policies for safeguarding critical infrastructure.

Through this MoU, LTTS and BITS Pilani will also collaborate on resources, sharing technical infrastructure, research labs, and expertise to mutually enhance their capabilities. Additionally, the ecosystem will create enduring platforms for co-hosting conferences, innovation boot camps, and mentoring programs to address evolving security needs.

Prof. Soumyo Mukherji, Director of BITS Pilani Hyderabad, added, *"The establishment of CRENS marks a significant milestone in integrating academic brilliance with real-world applications. This partnership with an engineering and technology pioneer like LTTS ensures that India remains at the forefront of technology and policy in national security."*

*"Our collaboration reflects the shared commitment to fortify India's national security and public safety framework while advancing the vision of Make in India globally," said **Abhishek Sinha, Executive Director and President - Medical, Smart World & Functions, L&T Technology Services**. "By uniting our engineering rigor with the thought leadership of BITS Pilani and CRENS, we are creating a foundation for innovation-driven solutions that safeguard critical infrastructure and build a safer future."*

About L&T Technology Services Ltd

L&T Technology Services (LTTS) is a global leader in engineering and technology services. A listed subsidiary of Larsen & Toubro (L&T), we offer design, development, testing, and sustenance services across products and processes.

Purposeful. Agile. Innovation. is how we drive growth across the Mobility, Sustainability and Tech segments. Our customer base includes 69 Fortune 500 companies and 57 top ER&D companies across industrial products, medical devices, transportation, telecom & hi-tech, and process industries. Headquartered in India, we have over 24,250 employees across 23 global design centers, 30 global sales offices, and 108 innovation labs, as of March 31, 2025.
