Calsonic Kansei and L&T Technology Services deepen 4 year partnership, inaugurate state of the art Material Test Centre in Chennai

Chennai, India, February 16, 2016: Calsonic Kansei (CK) and L&T Technology Services inaugurated the dedicated Material Test Centre (MTC) at Chennai. The test centre is setup and operated by L&T Technology Services to cater to Calsonic Kansei’s global needs of material testing including Japan, Europe, North America, Thailand and India. The inauguration was presided over by Calsonic Kansei’s Executives, Mr. Katsumi Nakamura - Chairman, Mr. Hiroshi Moriya - President & CEO, Mr. Hideto Murakami -EVP (R&D) along with Dr. Keshab Panda – CEO and MD, L&T Technology Services and Mr. Kumar Prabhas - COO, L&T Technology Services

The new centre is equipped with state of the art machines to test a range of automotive plastics. Mr. Murakami commented “This (MTC) is a strategic centre to take care of our global testing needs, it adds significant value to Calsonic Kansei and we are happy to expand our relationship with L&T Technology Services since the start of our Engineering Development Centre a little less than 4 years ago”.

Dr. Keshab Panda, CEO & MD at L&T Technology Services said, “We are delighted to have this opportunity to scale up our partnership that began in 2012, when we launched the development centre for Calsonic Kansei. We have been consistently adding value and innovation to CK’s engineering process since then and are now happy to extend this value chain with the setup of this facility.”

About Calsonic Kansei Corporation:
Calsonic Kansei is a global comprehensive automotive parts manufacturer. Established in 1938, CK is based out of Saitama, Japan, and is listed on the Tokyo Stock Exchange. CK develops and designs automotive products/ components that contribute to fuel economy. CK has a global network with its centre in Japan and emphasis in North America, Europe, and Asia. They have 60 manufacturing centres across these continents with development bases in the United States, U.K., France, China and Japan. Their worldwide footprints facilitate optimal supply of uniform quality through a diversified workforce of 20,000 people. CK was among the first to obtain the ISO/TS16949 quality standard in the automotive sector.

About L&T Technology Services Limited:
L&T Technology Services Limited is a wholly-owned subsidiary of Larsen & Toubro Limited with a focus on the Engineering Services space, partnering with a large number of Fortune 500 companies globally. We offer design and development solutions throughout the entire product development chain across various industries such as Industrial Products, Medical Devices, Automotive, Aerospace, Railways, Off-Highway & Polymer, Commercial Vehicles, Telecom & Hi-Tech, and the Process Industry. The company also offers solutions in the areas of Mechanical Engineering Services, Embedded Systems & Engineering Application Software, Product Lifecycle Management, Engineering Analytics, Power Electronics, and M2M and the Internet-of-Things (IoT).
With a multi-disciplinary and multi-domain presence, we challenge ourselves every day to help clients achieve a sustainable competitive advantage through value-creating products, processes and services. Headquartered in India, with over 10,000 highly skilled professionals, 12 global delivery centers and operations in 35 locations around the world, we constantly find flexible ways of working, tailored to our assignments and customer needs.
