

## L&T Technology Services inaugurates Aerospace & Defense Engineering Design Center in Rockford, Illinois

*(Left to Right) Mr. Chris Griffiths Senior Director, Collins Aerospace, Mr. Stan Kottke, Vice President of Electric Power Systems, Collins Aerospace, Mr. Tom McNamara, Mayor, Rockford City, IL Dr. Keshab Panda, CEO & Managing Director, LTTS and Anthony Andrew Foti, Account Executive, LTTS formally launch the Rockford Design Engineering Center with a ribbon cutting ceremony*

**Rockford, IL. December 19, 2019:** L&T Technology Services Limited (NSE: LTTS), a leading global pure-play engineering services company, announced it has opened a design engineering center in Rockford, Illinois (USA) to cater to the new age digital requirements of the aerospace and defense markets. The latest initiative will enable LTTS to further build on the momentum gained by the company in the aerospace sector across the globe.

This center of excellence will specialize in development of high-performance engineering solutions for global aerospace and defense technology players. The facility will have a team of over 100 engineers with expertise in digital engineering, systems engineering and avionics design.

The center was inaugurated by Mr. Stan Kottke, Vice President of Electric Power Systems, Collins Aerospace, Senator Dave Syverson and Mr. Tom McNamara, Mayor, Rockford City, IL, in the presence of Dr. Keshab Panda, CEO & Managing Director, L&T Technology Services and other top industry officials. The 130-seater center of excellence is LTTS' sixth design center in the United States.

In [July](#) this year, LTTS was selected by Collins Aerospace to provide advanced aerospace and defense service needs.

LTTS' distinct advantages in the aerospace landscape include ITAR (International Traffic in Arms) Compliance, certified state-of-art facilities, strong global customer base, robust lab & testing infrastructure and strategic alliances with Fortune 500 companies.

The company's offerings to the aerospace sector encompass a wide spectrum including aero engine, aero structure & systems, avionics, air traffic management and new-age disruptive digital transformation solutions which cater to all phases of the Aircraft Lifecycle- design, manufacturing and aftermarket services.

"The new center of excellence serves as a testament to LTTS' commitment to continued innovation and advanced capabilities in the aerospace and defense realms," **said Dr Keshab Panda, CEO & Managing Director at L&T Technology Services Limited.** Through this investment, we will leverage our expertise in systems engineering and deliver differentiated value to our customers," he said.

**Mr. Tom McNamara, Mayor, City of Rockford, said,** "Rockford has always been at the forefront of manufacturing and aerospace. We're thrilled that L&T Technology Services will continue to build on that legacy by creating a hub for new digital opportunities for the aero and defense industries and further bolstering the business environment in this region".

#### **About L&T Technology Services Ltd**

L&T Technology Services Limited (LTTS) is a listed subsidiary of Larsen & Toubro Limited focused on Engineering and R&D (ER&D) services. We offer consultancy, design, development and testing services across the product and process development life cycle. Our customer base includes 69 Fortune 500 companies and 51 of the world's top ER&D companies, across industrial products, medical devices, transportation, telecom & hi-tech, and the process industries. Headquartered in India, we have over 16,700 employees spread across 17 global design centers, 28 global sales offices and 49 innovation labs as of September 30, 2019.
